

MAKE YOUR MARK WITH  
**INKED™ WALLCOVERING**

Let your imagination  
run wild with our  
Inked™ Wallcovering.

Any design, in any color can be printed on our Inked Wallcovering, making it the perfect way to coordinate the walls of any space. From logos and words to patterns and images, you dream it, and we'll create it. Like all Vitrulan wallcoverings, Inked creates a durable and easy-to-clean surface that eliminates any pores and pockets. That makes Inked the ideal wallcovering solution for any environment that demands both function and style – including retail, hospitality, education, healthcare, corporate and creative spaces.

*The writings literally on the wall with Inked in this fitness center.*

*A wall can become a reflection of your brand, as in this healthcare waiting room.*

*Style is on the menu with Inked on the walls in a restaurant setting.*

Inked is made of a breathable, woven glass fabric, which allows for enhanced performance on your walls. For ultimate durability, specify Inked as part of the Vitrulan Reinforced Polyurethane (VRP®) Wall System. With the VRP System, the Inked Wallcovering is applied like wallpaper and then a clear coat, in gloss, satin or matte finish, is rolled on for added protection. Simple – yet the system boasts so many benefits. From durability and hygiene to aesthetics and maintenance, the VRP System sets a new standard in wall coverings.

Contact your local rep to get your custom wall messaging.
