

Let Your imagination Run Wild
Inked Printed Wall System
GRAPHICS, PHOTOS, LOGOS, PATTERNS

A DURABLE & TEXTURED COMMERCIAL WALLCOVERING YOU CAN CUSTOMIZE

One surface - any image.
Done with a simple emboss.

Or a printed visual statement.

Any design, in any color can be printed on our **Inked Wallcovering**, making it the perfect way to coordinate the walls of a space with the décor of your choosing. From logos and words to patterns and images, you dream it, and we'll create it.

INKED

Like all Vitrulan wallcoverings, Inked creates a smooth or textured, durable and easy-to-clean surface that eliminates any pores and pockets. That makes Inked the ideal versatile wallcovering solution for any environment that demands both function and style – including healthcare, retail, hospitality, education, corporate and creative spaces.

Inked is made of a breathable, woven glass fabric, which allows for enhanced performance on your walls. For ultimate durability, specify Inked as part of the Vitrulan Reinforced Polyurethane (VRP®) Wall System. With the VRP System, the Inked Wallcovering is applied like wallpaper and then a clear coat, in gloss, satin or matte finish, is rolled on for added protection. Simple – yet the system boasts so many benefits. From durability and hygiene to aesthetics and maintenance, the VRP System sets a new standard in wall coverings.

Textures and patterns.

Images and graphics.

Logos and artwork.

SUBMITTING ARTWORK A simple process

- **YOU** submit your artwork in a high resolution PDF or vector based file format and supply dimensions.
- **WE** send you a printed proof/sample so you can check the output and content.
- **YOU** review and approve the artwork
- **WE** head into production and delivery target dates
