

DURABLE & PROTECTIVE  
**WALLCOVERING**  
YOU CAN CUSTOMIZE

## **SURFACE PREPARATION**

### **INSTALLING VITRULAN® GLASS DECO FABRIC OVER GLASS BLOCK WALL / CINDER BLOCK (CMU)**

#### **SURFACE PREPERATION**

1. Clean and degrease all ceramic, glass or painted tile surface with appropriate commercial cleanser.
2. Apply appropriate bonding agent, such as Zinsser Bondz®.
3. Fill and smooth surface with drywall compound to a level two (2) finish, filling in all joints of the complete surface.
4. Fill transition seams or gaps with drywall compound.
5. Embed drywall tape over seam or gap between drywall and glass block transition. Finish with drywall compound to achieve smooth and flat transition from glass/tiles surface to extension wall.
6. Prime surface with quality primer/sealer.

#### **INSTALLATION OVER TRANSITION SEAM**

1. After surface has thoroughly dried, install Vitrulan® Glass Deco Textile according to instructions.
2. To achieve maximum coverage and appropriate installation over transitions seams make certain that Vitrulan Glass Deco Textile seams are at least twelve (12) inches from glass/drywall transition seam, or gap on either side.
  - a. As base product is flexible textile, seams will “telegraph” if not covered properly.
