

DURABLE & PROTECTIVE  
**WALLCOVERING**  
YOU CAN CUSTOMIZE

## INKED® PRINTED WALL SYSTEM SPECIFICATION PROCESS

### Sampling Process/Time-Frame:

- Client should forward all artwork, required dimensions and quantity to Vitrulan USA as soon as the concept has been developed.
- It is our preference to receive the actual working files from Adobe formats for the production of samples and orders.
  - ❖ *These can be either AI files (from Adobe Illustrator) or high-resolution PDF files (from Adobe Photoshop).*
- The artwork should represent the final, full graphic size prior to samples being requested.
  - ❖ *It is preferable to receive the artwork in a 1:1 scale, (though we realize this is not always possible).*
  - ❖ *We can accept artwork in the following alternate scales: (1:2, 1:4, 1:10) This needs to be clearly defined in the submitted artwork.*
  - ❖ *Should the artwork be too large we will initiate additional dialogue with the client.*
- The portion of the artwork required for sampling must be highlighted with a lined rectangular box, or a separate file submitted, from the working files.
- Vitrulan will produce a sample – 18"x18" using the saved files (pdf, eps, jpeg, etc.) to be submitted to the client for approval on color, clarity, size etc.
  - ❖ *Estimated time frame from receipt of final artwork to shipment is 5 business days*

### Production Process / Time Frame:

- Upon approval of sample artwork by Vitrulan, we will initiate the production process of printing and packaging the order
- Depending on quantities and size of project production times may vary.
  - ❖ Estimated time frames:
    - < 2,000 s/f – 5 Business Days
    - 2,000 – 5,000+ s/f – 7 Business Days
    - 5,000 – 10,000+ s/f – 14 Business Days.
    - 10,000+ - We will quote prior to production
